To whom it may concern:

On behalf of South Hanover Township, we would like to provide this letter of recommendation for SR Duffie Consulting LLC (SR Duffie) and Rick Martz.

SR Duffie was selected by the Township as the Clerk of the Works for our recently completed Municipal and Fire Station buildings. The project consisted of two (2) new buildings, a 10,000 square foot Municipal building and 10,000 square foot Fire Station, constructed on a new 28 acre campus with a construction costs of \$ 8M.

Mr. Martz was the onsite Clerk that acted as the eyes and ears for the Township, as well as our fulltime representation on the project. He was key in providing interaction between the township and contractors and keeping the township informed on project details. Rick insured that the work being put in place by the contractors was installed per the drawings and specifications and met the level of quality required by today's industry standards. He assisted the township when decisions were required by educating us and making sure we understood issues before making critical decisions. Rick was very instrumental acting as a liaison between the Architect and contractors. He made sure the Architect provided timely responses to contractors' questions and keeping the project moving. The value we received for having S.R. Duffie represent our interests during the construction of our new facilities was unmeasurable.

South Hanover Township certainly would look forward to working with them again and strongly recommends SR Duffie to other Townships and owners that are looking for a company that is truly invested in their clients' best interests!

Sincerely,
SOUTH HANOVER TOWNSHIP

*Penny C. Pollick
Township Manager*
